**Saturday, March 9, 2019
St. Joseph Center**

This day we will ponder the life, death, and Resurrection of Jesus within an evolutionary context. The "letting go" that Jesus embodied teaches us a new way to be in our world. Rooted in contemplative practice, we become open to this invitation to a new way of seeing and being. This consciousness is so needed as we face the future of our congregation, our Church, our nation, and our global community. The full-day retreat begins with breakfast at 8:00 a.m. and concludes with Mass in St. Joseph Chapel.
